

## ACTIVITIES

The aim of COBRO's activities is to fulfil research and development, innovative, educational and informative demands of stakeholders working on designing, producing, distributing, using and disposing packaging materials and packaging. COBRO acknowledges the importance of sustainability of packaging and offers a range of products and services in this area, including certification and sustainability declarations (LCA, PEF's and Carbon Footprint).

## ACTINPAK FOCUS

COBRO is the leader of WG3 – Sustainability Issues, Health and Safety. Our objective is to identify and report on sustainability issues of active and intelligent packaging.
