

## ACTIVITIES

Provides business solutions with an integrated view of the whole supply chain, from raw materials, design and development of packaging systems, optimization of the movement and distribution of goods, until the products reach the consumer and are ultimately managed as residues, all within a framework of sustainable performance. Contributes to improving the competitiveness of the multisectorial industry, increasing product quality, promoting its internationalization and optimizing its supply chain, etc.

## ACTINPAK FOCUS

ITENE participates in all working groups of the COST action FP1405, bringing active and intelligent packaging solutions know-how to real market.
