

# MULTI PACKAGING SOLUTIONS (“MPS”)

## ACTIVITIES

MPS provides print-based packaging, including folding cartons, labels, inserts/leaflets, and specialty packaging across a variety of substrates and finishes.

The company has 60 manufacturing locations in North America, Asia and Europe and employs over 9,000 people.

A global provider of packaging solutions to a diverse customer base across the healthcare and branded consumer markets.

Our aim is to add value to carton-board and paper packaging by addressing the unmet needs of our customers and consumers [www.multipkg.com](http://www.multipkg.com).

## ACTINPAK FOCUS

The incorporation of functionality into mass produced paperboard packaging during the print and conversion processes

To gain knowledge and establish working partnerships to develop a step change in the functionality of paperbased packaging and take to proof of concept

*Why at the point of conversion rather than within the material manufacture :*

total flexibility of positioning within the finished article

flexibility and tailoring of activity specifications
