

ACTIVITIES

At ZHAW we aim to develop **innovative** packaging technologies to preserve the **quality of food** and **ensure its safety**. For that purpose we strongly collaborate with universities and research institutes as well as with packaging and food industries.

ACTINPAK FOCUS

ZHAW leads the Working Group 1 “Development and Innovation” of the COST Action FP1405, and focusses on the **development and industrialisation of active and intelligent packaging technologies** in close collaboration with industrial partners
